UNDERSTANDING & MEETING YOUR NEEDS

From the RFP or during our recent visit with your team, we understood your team to express the following needs, requests, and/or issues. We've detailed our proposed solutions below and are happy to discuss other related projects as they arise and upon request.

NEEDS & ISSUES		SOLUTIONS & SERVICES
Technical	The District is required to have independent audits performed on its financial statements.	Perform external audit services in accordance with auditing standards generally accepted in the United States of America (GAAS), in order to express an opinion on the Crossings Community Development District's financial statements.
Relational	The District's Board of Supervisors and management expect open and continuous communication with their CPA firm in order to avoid surprise findings at the end of the audit.	Communicate contemporaneously and directly with management regarding the results of our procedures. Anticipate and respond to concerns of management and/or the Audit Committee (if/when formed).

YOUR SERVICES AND FEES

We value creating mutually rewarding, long-term relationships with our clients. Our goal is to provide high quality, responsive service that yields returns far greater than your investment in our professional fees. Please find below our proposal of fees to provide the requested services for the upcoming fiscal years.

SERVICE	CRI FEES 2022	CRI FEES 2023	CRI FEES 2024	CRI FEES 2025	CRI FEES 2026
Perform external audit services in accordance with auditing standards generally accepted in the United States of America (GAAS)	\$6,000	\$6,000	\$6,000	\$6,000	\$6,000

The above fee quote is based in part on the fact that the District has not yet issued bonds or other debt instruments to finance capital asset acquisition and construction. In the event the District issues such debt instruments or upon construction of major infrastructure additions, the audit fee will increase by an amount not to exceed \$5,000 per year.

If Crossings Community Development District requests additional services outside of this proposal, professional fee hourly rates are as follows, but may be negotiated depending on the project request:

CLASSIFICATION	HOURLY RATE
Partner	\$325
Manager	\$225
Senior	\$150
Staff	\$110
IT Specialist	\$400
Fraud Specialist	\$400

Our professional fees are based on the key assumptions that Crossings Community Development District will:

- Ensure that the predecessor's work papers will be made available for timely review, if applicable.
- Make available documents and work papers for review at Crossings Community Development District's headquarters location, although we may choose to review at alternate locations.
- Prepare certain schedules and analyses and provide supporting documents as requested.
- Assist us in obtaining an understanding of the accounting systems of Crossings Community Development District.
- Not experience a significant change in business operations or financial reporting standards.

AUDIT METHODOLOGY

Our audit, tax, consulting, and client accounting services documentation is maintained electronically. Compliance with our methodology is regularly reviewed and evaluated as part of our internal quality program, which is further discussed in this section under **INTERNAL QUALITY CONTROL REVIEWS AND EXTERNAL REVIEWS**. Comprehensive policies and procedures governing all of our practices and addressing professional and regulatory standards and implementation issues are constantly updated for new professional developments and emerging issues. See the table of contents to identify the relevant audit approach and methodology detailed description section.

ENGAGEMENT QUALITY REVIEW PARTNER (CONCURRING PARTNER)

Audit engagements are assigned engagement quality review (EQR) partner, as appropriate. This role is one of the most important elements of our quality assurance process, as it provides for a timely, independent review of key accounting and auditing issues. The EQR partner also reviews the financial statements and related supporting documentation—including the disclosures—to evaluate their fair presentation under accounting principles generally accepted in the United States of America (GAAP).

INTERNAL QUALITY CONTROL REVIEWS AND EXTERNAL REVIEWS

Experienced partners and professional staff of our firm conduct quality control reviews of our audits. Our partners' work is reviewed annually, and the inspection process includes periodic testing of the effectiveness of our quality controls and a continuous improvement program. This risk-based annual inspection is intended to mimic the triennial peer review described in the following paragraph and are performed on completed engagements. In addition to this inspection, we perform in-process, "pre-issuance" reviews of partners' work that are chosen for using a risk-based selection process; these reviews are performed by our corporate quality control team. The combination of the in-process and completed engagements is part of our continuous improvement processes.

Peer reviews are performed every three years by another independent public accounting firm. The most recent review of our firm was performed in 2022 by Brown Edwards, whose report was the most favorable possible "Pass".

In addition, we are registered with the PCAOB and our 2021 PCAOB inspection report was also the most favorable possible—no audit deficiencies or quality control defects identified. The 2021 PCAOB report can be viewed at:

https://pcaob-assets.azureedge.net/pcaob-dev/docs/default-source/inspections/reports/documents/104-2022-150-carr-riggs.pdf?sfvrsn=2a077f2f_2.

CRI AUDIT FRAMEWORK

Our proposed services require a coordinated effort between us and Crossings Community Development District's team. Planning and continual communication are essential to developing the appropriate procedures, working collaboratively to resolve any identified issues, and meeting your timelines.

CRI's audit approach occurs within a framework of our client's business and industry; therefore, we assess risk by:

- Understanding management's perspectives and goals, and
- Considering business conditions and threats that could prevent management from achieving its business objectives.

We assess risks in the following areas:

CRI AUDIT FRAMEWORK

Our ultimate intent is to drill down from these broad risks to specific financial reporting risks. We understand both these risks and management's processes and procedures for mitigating them (i.e. internal controls) in order to develop our procedures to carry out our audit responsibilities.

Although our audits are conducted through a structured, risk-based model, we focus on understanding the client's needs, requirements, and expectations. We work collaboratively with management and the Audit Committee (or similar function) to develop a communication and work plan to continuously improve client service, by doing so we help in moving your team from simple compliance to providing you with a competitive advantage.

In planning, we concentrate on "key risks," (items with a greater risk of a material misstatement, a material weakness in internal controls, or other matters resulting in the issuance of an inappropriate audit report). We focus on "material" items (i.e. those items that would be important to the user of your financial statements). When evaluating materiality of identified misstatements, certain quantitative and qualitative factors must be considered—which may include:

- Impact on operating trends (revenue/income, expenses, net income, etc).
- Nature of the misstatement (i.e., did the misstatement result from an unlawful transaction?).
- Impact on liquidity, capital/surplus, earnings capacity, etc.
- Impact to loan covenants and contractual and regulatory requirements.

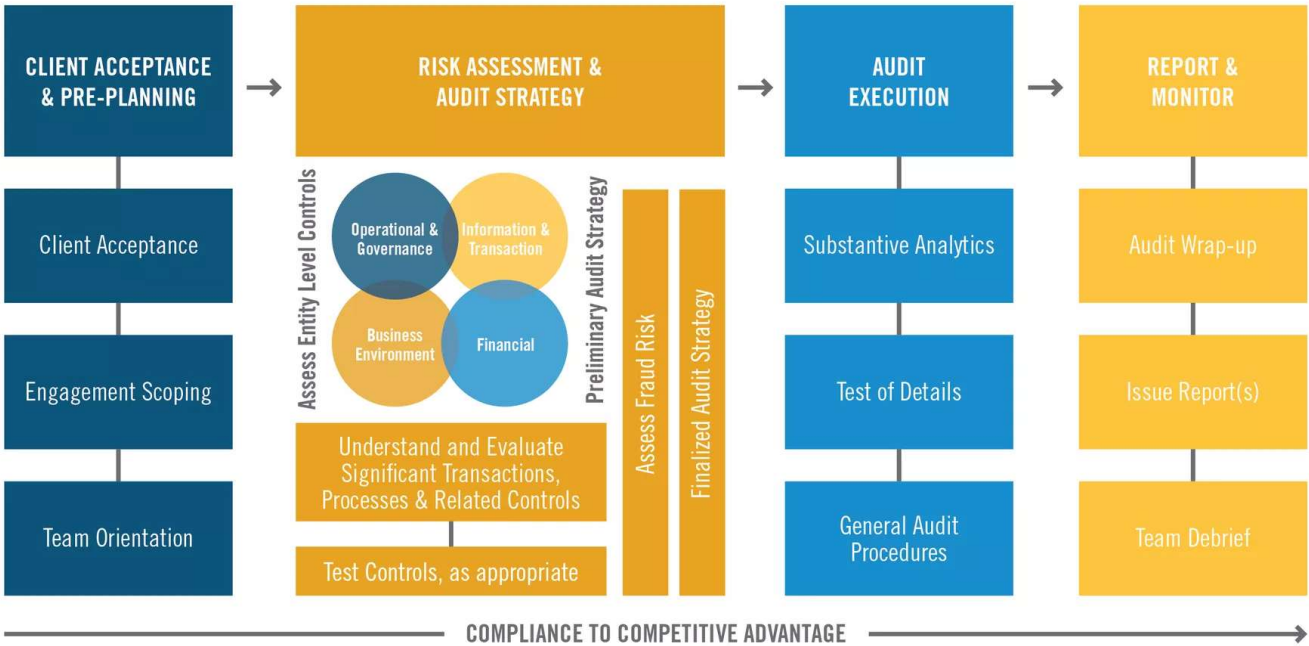

Consistent communication is a key to completion of the audit. By ensuring constant involvement, we are in a better position to respond to your issues timely and efficiently. Therefore, we plan to meet with your management to:

- Set-up the audit by reviewing the mapping of Crossings Community Development District's financial information (financial statements and notes) to significant processes and IT systems to ensure that all significant account balances, transactions, procedures, and systems are tested as deemed necessary.
- Discuss ongoing changes—specifically new accounting pronouncements and key business transactions in their early stages, enabling us to agree on the resolution of various complex business issues on a timely basis.

CRI AUDIT APPROACH

Our audit approach is a four stage approach, as depicted in the summary below. Our client acceptance and risk assessment procedures occur during detailed conversations and observations with your team. The results of those procedures allow us to tailor an audit program to your specific risks and needs. We then execute the audit, report the results, and evaluate continuous improvement opportunities for ongoing service and benefit to you.

STAGE 1: CLIENT ACCEPTANCE & PRE-PLANNING

- Perform client acceptance procedures.
- Collaborate with management to agree to expectations and scope.
- Assign appropriate staff based on client needs and assessed risk.

STAGE 2: RISK ASSESSMENT & AUDIT STRATEGY

- Interview client personnel and others to understand client-specific objectives and risks.
- Assess following aspects of the organization for their impact on the audit plan:
 - environmental and other external risks,
 - management's fraud and IT risk assessment models,
 - entity level controls including:
 - control environment
 - risk assessment,
 - information and communication,
 - and monitoring controls.
 - IT General Computer (ITGC) controls, such as
 - IT Environment
 - Developing and Delivering IT, and
 - Operating and Monitoring IT.
- Determine materiality.
- Develop and document our understanding of and/or reliance on:
 - linkage of financial statements to:
 - significant transactions,
 - processes,
 - IT systems, and
 - related controls,
 - existence of/reliance on SOC entities and their reports,
 - internal audit, and
 - specialists (e.g. valuation, pension costs, etc.).
- If elected, test controls including ITGC, through a mix of:
 - inquiry,
 - observation
 - examination, and
 - re-performance.
- Perform preliminary analytical procedures.
- Finalize risk assessments and develop a final audit strategy.

STAGE 3: AUDIT EXECUTION

- Where possible to test as efficiently as possible:
 - develop detailed analytical procedures to use as substantive tests (benefit = reducing tests of details):
Examples include:
 - ratio analysis,
 - regression analysis,
 - trend analysis,
 - predictive tests, or
 - reasonableness test,
 - utilize Computer-Assisted Audit Techniques (CAATs) (benefit = automation of testing for more coverage and less disruption to the client), and
 - perform targeted testing (also known as "coverage" testing) to test large portions of account balances (benefit = more coverage with smaller selections).
- Perform tests of details, including sampling.
- Perform general audit procedures such as tests related to:
 - commitments and contingencies,
 - legal letters,
 - management representations,
 - reviews of Board minutes,
 - related party transactions,
 - debt covenants, and
 - going concern.
- Perform other tests for compliance such as Yellow Book or Single Audit tests.

STAGE 4: REPORT & MONITOR

- Continually monitor throughout the audit - providing feedback as agreed during scoping.
- Conclude the audit (i.e. issue opinions and reports).
- Develop and present:
 - reports,
 - required communications,
 - management letter comments, and
 - other audit-related deliverables.
- Perform debriefings to identify opportunities for improvement with our:
 - engagement team, and/or
 - client's team.

Our firm has frequent technical updates to keep our personnel informed and up to date on all changes that are occurring within the industry.

Timeliness – In order to meet the Districts needs, we will perform interim internal control testing by January 31st from unaudited preliminary general ledgers provided. Follow up review will be completed as necessary.

Communication and Knowledge Sharing— Another driving force behind our service approach is frequent, candid and open communication with management with no surprises. During the course of the audit, we will communicate with management on a regular basis to provide you with a status report on the audit and to discuss any issues that arise, potential management letter comments, or potential audit differences.

In the accompanying proposal, you will find additional information upon which you can evaluate DMHB's qualifications. Our full team is in place and waiting to serve you. b. SPECIFIC AUDIT APPROACH

Our partners are not strangers who show up for an entrance conference and an exit conference. We have developed an audit plan that allows the partners to directly supervise our staff in the field. By assigning two partners to the audit, we will have a partner on-site for a significant portion of the fieldwork. This also gives the District an additional contact individual for questions or problems that may arise during the audit.

The scope of our services will include a financial, as well as, a compliance audit of the District's financial statements. Our audit will be conducted in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Additionally, our audit will be conducted in accordance with the provisions of Chapter 10.550, Rules of the Auditor General, which govern the conduct of local government entity audits performed in the State of Florida.

Our audit approach places emphasis on the accounting information system and how the data is recorded, rather than solely on the verification of numbers on a financial statement. This approach enables us to:

- Maximize our understanding of the District's operating environment
- Minimize time required conducting the audit since we start with broad considerations and narrow to specific audit objectives in critical areas

Our audit approach consists of four phases encompassing our audit process:

- Planning Phase
- Detailed Audit Phase
- Closing Phase
- Reporting

Planning Phase

Meetings and Expectations:

Our first step in this phase will be to set up a planning meeting with the financial and operating management of Crossings Community Development District. Our goal here is to eliminate "surprises." By meeting with responsible officials early on we can discuss significant accounting policies, closing procedures and timetables, planned timing of our audit procedures and expectations of our work. This will also be the starting point for our discussions with management related to *SAS No. 99-Consideration of Fraud in a Financial Statement Audit*. Inquiries will be made regarding managements knowledge of fraud and on management's views regarding the risk of fraud.

Review Operations and Develop Engagement Plan

It is critical that we understand the District's operating environment. To do this we will obtain and review such items as, organizational charts, recent financial statements, budget information, major contracts and lease agreements. We will also gather other information necessary to increase our understanding of the District's operations, organization, and internal control.

Study and Evaluate Internal Control

As part of general planning, we will obtain an understanding and assessment of the District's control environment. This assessment involves a review of management's operating style, written internal control procedures, and the District's accounting system. The assessment is necessary to determine if we can rely on control procedures and thus reduce the extent of substantive testing.

We then test compliance with established control procedures by ascertaining that the significant strengths within the system are functioning as described to us. Generally, transactions are selected and reviewed in sufficient detail to permit us to formulate conclusions regarding compliance with control procedures and the extent of operation compliance with pertinent laws and regulations. This involves gaining an understanding of the District's procedures, laws and regulations, and testing systems for compliance by examining contracts, invoices, bid procedures, and other documents. After testing controls, we then evaluate the results of those tests and decide whether we can rely on controls and thus reduce other audit procedures.

Conduct Preliminary Analytical Review

Also during the planning stage, we undertake analytical procedures that aid us in focusing our energies in the right direction. We call these analytical reviews.

A properly designed analytical review can be a very effective audit procedure in audits of governmental units. Analytical reviews consist of more than just a comparison of current-year actual results to prior-year actual results. Very effective analytical review techniques include trend analysis covering a number of years and comparisons of information not maintained totally within the financial accounting system, such as per capita information, prevailing market interest rates, housing statistics, etc.

Some examples of effective analytical reviews performed together and/or individually include:

- Comparison of current-year actual results with current-year budget for the current and past years with investigation of significant differences and/or trends
- Trend analysis of the percentage of current-year revenues to current-year rates for the current and previous years with investigation of significant changes in the collection percentage
- Trend analysis of the percentage of expenditures by function for the current and previous years with investigation of significant changes in percentages by department
- Monthly analysis of receipts compared to prior years to detect trends that may have audit implications

Conclusions reached enable us to determine the nature, timing and extent of other substantive procedures.

Detailed Audit Phase

Conduct Final Risk Assessment and Prepare Audit Programs

Risk assessment requires evaluating the likelihood of errors occurring that could have a material affect on the financial statements being audited. The conclusions we reach are based on many evaluations of internal control, systems, accounts, and transactions that occur throughout the audit. After evaluating the results of our tests of control and our final risk assessment we can develop detailed audit programs.

Perform Substantive Tests of Account Balances

These tests are designed to provide reasonable assurance as to the validity of the information produced by the accounting system. Substantive tests involve such things as examining invoices supporting payments, confirmation of balances with independent parties, analytical review procedures, and physical inspection of assets. All significant accounts will be subjected to substantive procedures. Substantive tests provide direct evidence of the completeness, accuracy, and validity of data.

Perform Single Audit Procedures (if applicable)

During the planning phase of the audit we will request and review schedules of expenditures of federal awards and state financial assistance. These schedules will be the basis for our determination of the specific programs we will test.

In documenting our understanding of the internal control system for the financial statement audit, we will identify control activities that impact major federal and state programs as well. This will allow us to test certain controls for the financial audit and the single audit concurrently. We will then perform additional tests of controls for each federal and state program selected for testing. We will then evaluate the results of the test of controls to determine the nature, timing and extent of substantive testing necessary to determine compliance with major program requirements.

Perform Statutory Compliance Testing

We have developed audit programs for Crossings Creek Community Development District designed to test Florida Statutes as required by the Auditor General. These programs include test procedures such as general inquiries, confirmation from third parties, and examination of specific documents.

Closing Phase

During the closing phase we perform detail work paper reviews, request legal letters, review subsequent events and proposed audit adjustments. Communication with the client is critical in this phase to ensure that the information necessary to prepare financial statements in conformity with accounting principles generally accepted in the United States has been obtained.

Reporting Phase

Financial Statement Preparation

As a local firm, we spend a considerable amount of time on financial statement preparation and support. With this in mind, we can assist in certain portions of the preparation of financial statements or simply review a draft of financials prepared by your staff. We let you determine our level of involvement.

Management Letters

We want to help you solve problems before they become major.

Our management letters go beyond citing possible deficiencies in the District's internal control structures. They identify opportunities for increasing revenues, decreasing costs, improving management information, protecting assets and improving operational efficiency.

The diversity of experience of our personnel and their independent and objective viewpoints make the comments, observations, and conclusions presented in our management letters a valuable source of information. We have provided positive solution-oriented objective recommendations to our governmental clients regarding investments, accounting accuracy, data processing, revenue bonds, payroll, utility billing, purchasing, budgeting, risk management, and internal auditing.

This review ensures the integrity of the factual data in the management letter but does not influence or impair our independence.

Exit Conferences and Delivery of Reports

We anticipate meeting with appropriate District personnel in February and issuing the final required reports by the May meeting of each year.

Specific Audit Approach

Grau & Associates
CERTIFIED PUBLIC ACCOUNTANTS

AUDIT APPROACH

Grau's Understanding of Work Product / Scope of Services:

We recognize the District is an important entity and we are confident our firm is eminently qualified to meet the challenges of this engagement and deliver quality audit services. ***You would be a valued client of our firm and we pledge to commit all firm resources to provide the level and quality of services (as described below) which not only meet the requirements set forth in the RFP but will exceed those expectations.*** Grau & Associates fully understands the scope of professional services and work products requested. Our audit will follow the Auditing Standards of the AICPA, *Generally Accepted Government Auditing Standards*, issued by the Comptroller General of the United States, and the Rules of the Auditor General of the State of Florida and any other applicable Federal, State or Local regulations. **We will deliver our reports in accordance with your requirements.**

Proposed segmentation of the engagement

Our approach to the audit engagement is a risk-based approach which integrates the best of traditional auditing techniques and a total systems concept to enable the team to conduct a more efficient and effective audit. The audit will be conducted in three phases, which are as follows:

Phase I - Preliminary Planning

A thorough understanding of your organization, service objectives and operating environment is essential for the development of an audit plan and for an efficient, cost-effective audit. During this phase, we will meet with appropriate personnel to obtain and document our understanding of your operations and service objectives and, at the same time, give you the opportunity to express your expectations with respect to the services that we will provide. Our work effort will be coordinated so that there will be minimal disruption to your staff.

During this phase we will perform the following activities:

- » Review the regulatory, statutory and compliance requirements. This will include a review of applicable federal and state statutes, resolutions, bond documents, contracts, and other agreements;
- » Read minutes of meetings;
- » Review major sources of information such as budgets, organization charts, procedures, manuals, financial systems, and management information systems;
- » Obtain an understanding of fraud detection and prevention systems;
- » Obtain and document an understanding of internal control, including knowledge about the design of relevant policies, procedures, and records, and whether they have been placed in operation;
- » Assess risk and determine what controls we are to rely upon and what tests we are going to perform and perform test of controls;
- » Develop audit programs to incorporate the consideration of financial statement assertions, specific audit objectives, and appropriate audit procedures to achieve the specified objectives;
- » Discuss and resolve any accounting, auditing and reporting matters which have been identified.

Phase II – Execution of Audit Plan

The audit team will complete a major portion of transaction testing and audit requirements during this phase. The procedures performed during this period will enable us to identify any matter that may impact the completion of our work or require the attention of management. Tasks to be performed in Phase II include, but are not limited to the following:

- » Apply analytical procedures to further assist in the determination of the nature, timing, and extent of auditing procedures used to obtain evidential matter for specific account balances or classes of transactions;
- » Perform tests of account balances and transactions through sampling, vouching, confirmation and other analytical procedures; and
- » Perform tests of compliance.

Phase III - Completion and Delivery

In this phase of the audit, we will complete the tasks related to year-end balances and financial reporting. All reports will be reviewed with management before issuance, and the partners will be available to meet and discuss our report and address any questions. Tasks to be performed in Phase III include, but are not limited to the following:

- » Perform final analytical procedures;
- » Review information and make inquiries for subsequent events; and
- » Meeting with Management to discuss preparation of draft financial statements and any potential findings or recommendations.

You should expect more from your accounting firm than a signature in your annual financial report. Our concept of truly responsive professional service emphasizes taking an active interest in the issues of concern to our clients and serving as an effective resource in dealing with those issues. In following this approach, we not only audit financial information with hindsight but also consider the foresight you apply in managing operations.

Application of this approach in developing our management letter is particularly important given the increasing financial pressures and public scrutiny facing today's public officials. We will prepare the management letter at the completion of our final procedures.

In preparing this management letter, we will initially review any draft comments or recommendations with management. In addition, we will take necessary steps to ensure that matters are communicated to those charged with governance.

In addition to communicating any recommendations, we will also communicate the following, if any:

- » Significant audit adjustments;
- » Significant deficiencies or material weaknesses;
- » Disagreements with management; and
- » Difficulties encountered in performing the audit.

Our findings will contain a statement of condition describing the situation and the area that needs strengthening, what should be corrected and why. Our suggestions will withstand the basic tests of corrective action:

Is the recommendation cost effective?

Is the recommendation the simplest to effectuate in order to correct a problem?

Is the recommendation at the heart of the problem and not just correcting a symptomatic matter?

Is the corrective action taking into account why the deficiency occurred?

To assure full agreement with facts and circumstances, we will fully discuss each item with Management prior to the final exit conference. This policy means there will be no “surprises” in the management letter and fosters a professional, cooperative atmosphere.

Communications

We emphasize a continuous, year-round dialogue between the District and our management team. We regularly communicate through personal telephone calls and electronic mail throughout the audit and on a regular basis.

Our clients have the ability to transmit information to us on our secure client portal with the ability to assign different staff with separate log on and viewing capability. This further facilitates efficiency as all assigned users receive electronic mail notification as soon as new information has been posted into the portal.
